

KFIRE-LITE

A high power LED rechargeable battery powered or mains powered area flood light ideal for fire and rescue services. Compact to store, lightweight to carry and easy to setup in under a minute.

Using advanced optical lens design the KFIRE-LITE focuses all available light onto the required surface for maximised area illumination giving low glare and low light spill (light pollution) to surrounding areas.

KFIRE-LITE HEAD SETUP ANGLES

22,000 equivalent lumens light output
(when comparing light output to other symmetrical
lensed beam pattern products)

Stable to 25mph winds. No extra tie
downs or ground pegs required
